## IV

In Biology this term I find anything to be very easy for me. Not only is the course interested but it is easy to learn. My friend Michael and I will have many ways of memorizing the readings and learn the materials. For the rest of the people in our Biology class simply understanding the material is hard enough, let alone memorizing ^. These people are basically all 30—40-year-olds who had a lot on their minds but who find memorization quite difficult. So, in Biology, Michael and I are the top student and almost always know the answers for the questions the teacher asks. Sometimes since the teacher asks us questions, we can't help saying the answers out loud. This is why we are so used to test each other in our spare time. To the other people in our class this is very much funny. They often joke with us. We enjoy our class as well ^ our classmates.

Dear Mr. and Mrs Johnson,

I'm writing to tell you that I had a safe journey back to Beijing. Thanks to your hospitality, I had a wonderful time in Australia. It was my first time to go abroad and I was naturally a bit nervous when I first arrived. When I saw you at the airport ,however, I knew from your warm smile of welcome that everything would be all right. With Jenny's help, I visited so many places of interest in Australia, which leaves me quite a good memory. I hope some day you will come to visit Beijing and I can return your kindness.

Best wishes,

Li Ming
